

Adhesive

# ADHRC

This adhesive tape is made from a strong and waterproof PVC film. It can be used either with a manual reel or with an automatic machine.

It allows the copper wire to be covered when a magnetic loop is installed on the ground, to signal it and to protect it.

**MAGNETIC LOOP CABLE DO NOT CUT**  
CABLE POUR BOUCLE MAGNETIQUE NE PAS COUPER

<b>Adhesive nature</b>	Natural rubber, hydrocarbon and natural resins, pigments, plasticizers and antioxidants.
<b>Film nature</b>	Polyvinylchloride film
<b>Total thickness</b>	0,056mm
<b>Substrate thickness</b>	0,032mm
<b>Tackiness</b>	220g/cm
<b>Tension</b>	5,0kg/cm
<b>Elongation at break</b>	45% environ
<b>Temperature resistance</b>	+65c°
<b>Width</b>	48mm
<b>Length</b>	100mm
